Roller Felting Machine

Our new generation Felting Machine combines ease of use, flexibility and safety in one portable unit. The design provides Felters great flexibility in the finished product under controlled, repeatable conditions.

Features:

- Felts over 1metre wide and 3metres long**
- Easy to load with automatic height adjustment**
- Two piece flexible core felts evenly, no need to turn work.**
- Easily change work styles by varying top roller weight.**
- Variable Speed throughout the process.**
- Work is easily viewed with the clear safety guards.**
- Multi function timer and pause feature for repeating process.**
- Easy clean drip tray.**
- Fully guarded for safe operation.**
- Adjustable legs for levelling and solid carry handles.**
- Self lubricating bearings and easily accessed maintenance points**

\$6,250 Plus GST

Needle Felting Tools

Snowy Creek Needle Felting Tools are unique light weight precision machined aluminium tools for all your needle felting work. Our ergonomic design ensures that the tool fits the user's hand comfortably, with the entire needle shank held within the tool providing the shortest distance between fingers and felt. Requiring minimal gripping effort these tools provide the user the highest level of control and precision in their work.

Multi Needle Felting Tool

Our Multi Needle Tool holds from 1 to 6 felting needles in any required configuration allowing easy, fast and safe insertion and removal of needles.

Precision machined needle slots provide secure seating for the needles which are held in place by rubber rings.

Our design ensures that all the needles are held exactly parallel eliminating divergence of the needles reducing the effort required and needle breakage. The tools unique roll resistance means it stays where you put it.

Specification Multi Tool

75 mm (3") long Weighs only 17.5 grams (0.6 oz.)

Needles 6mm (1/4") Apart and 12mm (1/2") dia.

Natural \$ 25.00, Polished \$27.00

Anodised Gold or Red \$29.00

6 x 38g Groz Beckert Needles for \$7 .50 Or \$1.50 ea

Single Needle Felting Tool

With our Single Needle Tool the working tip of the needle is in the exact centre ensuring a constant working position related to your fingers every time you pick up the tool.

The precision machined needle slot provides secure seating for the needle which is held in place by rubber rings, which ensure positive location and provide for quick and easy needle changing. No screwdriver required.

The automatic centering of the felting needle allows easy, fast and safe insertion / removal of the needle

Specification Single Tool

75 mm (3") long....Weighs only 11 grams (0.38 oz.)

Natural \$ 24.00, Polished \$26.00, Anodised Gold or Red \$28.00

6 x 38g Groz Beckert Needles for \$7 .50 Or \$1.50 ea
